

# LA CÔTE DE L'ANGE

Châteauneuf du Pape

## Châteauneuf-du-Pape blanc

### Grape varieties

30% Clairette - 25% Roussanne - 25% Grenache -  
20% Bourboulenc

### Parcels

Le Grand Devès, La Nerthe.

### Soils

A surface area of 1.3 hectares, clay and limestone, vines  
30 years old on average.

### Yield

30 hectolitres per hectare.

### Pruning

vines trained on wires.  
The soil is tilled and the vines are treated only when  
necessary.  
The grapes are hand-picked and sorted.

### De-stalking

100 %.

### Pressing

Pneumatic press.

### Vatting time

After direct pressing the grapes were vinified as follows  
80 % in temperature-controlled tanks and 20 % in new  
barrels with stirring lees.
